

What went well?

What should we keep doing?
What should we celebrate?
Where did we make progress?

What went poorly?

Where did we have problems?
What was frustrating to us or others?
What held us back?

What ideas do you have?

What ideas do you have for future work together?
Where do you see opportunities to improve?
What has untapped potential?

How should we take action?

What do you believe we should do next?
What specific things should we change?
What should extend beyond this meeting?

Brainstorm & idea prioritization

Use this template to generate
and prioritize ideas for your
project. It is designed to help you
generate ideas and prioritize them
based on their impact and effort.

1. Generate ideas
2. Prioritize ideas

Before you collaborate

1. Define the problem
2. Identify the stakeholders
3. Set the goals
4. Establish the ground rules

1. Generate ideas
2. Prioritize ideas
3. Implement ideas

Define your problem statement

What problem are you trying to solve? What are the goals of your project? What are the constraints of your project?

Generate ideas

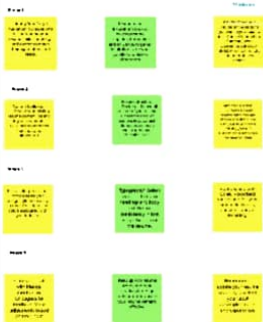

Brainstorming is a technique for generating ideas. It involves a group of people working together to generate ideas for a specific problem. The goal is to generate as many ideas as possible, without judgment.

Prioritize ideas

Once you have generated ideas, you need to prioritize them. This is done by evaluating each idea based on its impact and effort. The ideas are then ranked from highest to lowest impact/effort ratio.

Brainstorming

Brainstorming is a technique for generating ideas. It involves a group of people working together to generate ideas for a specific problem. The goal is to generate as many ideas as possible, without judgment.

Group ideas

Group ideas are ideas that are generated by a group of people. They are often more creative and innovative than individual ideas.

Group ideas

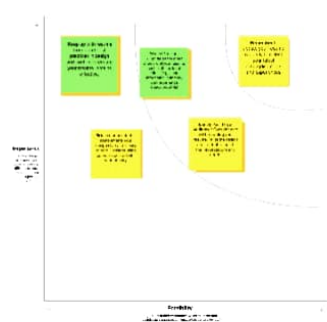

Group ideas are ideas that are generated by a group of people. They are often more creative and innovative than individual ideas.

Group facilitation and leadership

- Creative ideation and brainstorming techniques
- Digital tool proficiency
- Project management and coordination
- Effective communication and collaboration within a team

Prioritize

Prioritization is the process of ranking ideas based on their impact and effort. It is a key step in the idea generation process.

After you collaborate

After you have collaborated with others, you need to evaluate the ideas that you have generated. This is done by comparing the ideas to the original problem statement and the goals of the project.

1. Evaluate ideas
2. Implement ideas
3. Monitor progress
4. Adjust as needed
